## ABOUT ME

22 years. Single

Driving license B

Sports practiced

Hand-Ball (Championnat  
départemental Sénior)

Snowboard

Hobbies

Video games

## Training

### 2019 - 2022

3 years at EPITECH Montpellier (Learning and deepening the language C, C++, Haskell, Unity)

### 2018 - 2019

Preparatory class for the Grandes Ecoles, PC series at the Joffre high school in Montpellier

### 2018

Last year of High Scholl series S Option ISN (Initiation to Digital Sciences) at Joffre high school in Montpellier.. Baccalauréat with Honors

## Experiences

### 2022 - 2023 – Monash, Clayton Australia

- 'Game Design' and 'Game Programming' units, working 2 different games on Unreal. One is a Multiplayer game TPS and the other is a multiplayer smash bro like.
- 'Algorithm and Data Structure' unit, learning how to optimize algorithm and working behind a certain Big O notation (for sort or pathfinding for example)

### 2019 - 2022 - EPITECH Montpellier (private computer school)

- Multiple development projects in C, C++, Haskell as part of my training (linux, mathematics, graphics, etc.). See Github account.
- Multiple Graphic-oriented personal project. See portfolio.
- Realization of my own graphic engine in OpenGL that I reuse in my graphic projects.

### 2020 - Septeo Genapi (4-month internship from September to December)

- Progress on the Talent project. Back (C#), Front (HTML CSS et TS), DB (SQL)
- Tutor: Mathieu Gury
- Agile method practiced within a team of 9 members.

## Skills

### Professional

Relational

Communication

Team spirit

Rigorous

### Technological

C

C++

Unreal

Unity
