APPLICATION	PERIOD	DESCRIPTION
STAGE 1: PRE-SELECTION BY EPITECH **Application criteria**		• Be registered for Tech3 or Tech3s at Epitech • Have the universities' required language level (please refer to the table below), it can be either: 1- Tepitech, unless other information is listed **Or** 2- Official English test TOEIC/TOEFL/IELTS **Or** 3- Spanish or Portuguese, depending on the university (students responsible for associated fees) • **Any participation in a study abroad program is conditional on satisfactory completion of your third year.**
On-line application submission	04-13 January 2021	• Top 8 destinations in order of preference • Passport copy: passport must be valid for 6 months after the date your study abroad program ends. This applies to ALL destinations • Official scores for English, Spanish or Portuguese languages if they are required by the university (it is not necessary to submit a Tepitech score as these are already on file with EPITECH)

Pre-selection criteria		• GPA & credits obtained: 50%
		• Tepitech (last day to take Tepitech: January, 25th 2021): 15%
		• Involvement with student life and school activities: 35% including
		   • Hub participation (projects, hackathons…)
		   • EPITECH's special activities (community projects, mutual assistance, events…)
		   • Ecosystem's discovery (outer and inner meetups…)
		   • Knowledge sharing (E-mma, Coding club…)

Pre-selection results	Mid-February 2021	• Student placement and ranking is conducted at the national level based on the criteria mentioned above and the number of available places at the university of destination.
STAGE 2: ADMISSION TO PARTNER UNIVERSITY **Sending application to partner institutions**	February - July 2021 *(depending on partner university)*	• As soon as you have received your pre-selection results, a profile will be created for you on the intra RI (the portal dedicated to the International Relations). There you have a **due date** to put together an application file for the host university. When the file has been completed and verified by EPITECH's International Relations Office, we will send it to the host institution. The host institution has the right to refuse your admission in the case of an incomplete or late application. EPITECH declines all responsibility.

Host institution application feedback	In between March and July 2021 *(depending on partner university)*	• The answer will be sent directly from the host institution or EPITECH depending on the destination. • Definitive admission by the host institution: it is conditional on completion of your third year, re-enrolment to EPITECH for your fourth year, and maintaining good financial standing with EPITECH.
Declined applications		• EPITECH has no influence regarding your admission to the host institution. If your application is declined **(and your application was on-time and complete)**, EPITECH will redirect you to another partner institution depending on availability.
In case of withdrawal		• Students who withdraw from a program after acceptance by the partner risk losing their 2 000€ security deposit (this includes unapproved withdrawals once the student is on-site at the host institution).
STAGE 3: BEFORE DEPARTURE PREPARATION **The visa**	As soon as you have received your acceptance letter	• <u>**Your passport should be valid from the moment of submitting your application until six months after your study abroad program ends**</u> • Consider that receiving a visa is not automatic- this is up to the host institution government. The student must pay their visa fees and go pick it up personally. Non-European students should **make sure their residence permits are valid through their return date in France in order to be able to re-enter the country.**

STAGE 4: RETURN TO EPITECH
Validation of international credits at EPITECH
	September – October 2022	The international credits attribution commissions take place in September and October, after your return to EPITECH.
		Credits: An academic year at a partner institution corresponds to a maximum of 60 ECTS credits. The number of local credits to validate is specified on Tekfeed under the section "cursus" of each university.
		For students attending programs with a shifted schedule such as CSU San Marcos (deferred start format), CSU Long Beach deferred start format (without Berkeley), The College at Brockport, and UC San Diego, you must complete 45 ECTS credits on-site and 15 credits with the CEIP at EPITECH Paris. For any further information regarding the 15 EPITECH credits, please refer to the FAQ section on Tekfeed or to the CEIP team.
		• Once you return to EPITECH, you will be placed according to the credits you validated abroad:
		    ◦ In between 0 and 29 credits ECTS: 7th semester
		    ◦ In between 30 and 59 credits ECTS: 8th semester
		    ◦ 60 ECTS credits: 9th semester
		
		• EIP: Every Tech 4 year abroad involves an EIP. During your year abroad it is imperative to have regular contact with your EIP group and the CEIP team.

		• Tech 3 internship: The Tech 3 internship reports must be turned in and defended prior to departure. For the different modalities, confirm with the DPR of your campus.

- The Tech3s will not be able to choose partners whose start of the school year takes place between June and August. For departures in September, please approach the pedagogical direction to discuss adjusting your academic schedule.
- Scholarships are contingent upon course attendance and completing the required credits during the year abroad. If you do not respect these requirements, your scholarship will be revoked
